

Md Abul Kalam Azad

New York, NY • (347) 837-9863 • azadmd.tech@gmail.com • [LinkedIn](#) • [GitHub](#)

EDUCATION

City University of New York Queens College — Flushing, NY

Expected Graduation: Dec 2026

Bachelor's in Computer Science

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Systems, Software Engineering, Design and Analysis of Algorithms, Object-Oriented Programming (Java/C++), Computer Architecture, Theory of Computation, Discrete Structures

SKILLS

- Languages: Java, C++, SQL
- Tools: Git, GitHub, VSCode, Eclipse, IntelliJ IDEA
- Concepts: Data Structures, Algorithms, Object-Oriented Programming, Time & Space Complexity Analysis

PROJECTS

Linked List Data Structures (Singly & Doubly) | Java

Remote, Jan 2026 – Present

github.com/mdaazad/java-data-structures-algorithms/tree/main/data-structures/linked-lists

- Implemented singly and doubly linked lists using object-oriented design to deepening understanding of data structure behavior and performance trade-offs
- Developed key operations including insertion, deletion, traversal, reversal, and position-based updates with attention to time complexity
- Optimized performance by using a dummy head node and maintaining a tail pointer, improving efficiency of edge-case operations
- Analyzed time and space complexity to evaluate trade-offs and improve implementation decisions

EXPERIENCE

Queens College

New York, NY, Feb 2025 – May 2025

Peer Study Group Leader

- Facilitated 15+ weekly study sessions on Data Structures and Theory of Computation, helping students build confidence and mastery of core concepts
- Guided peers through challenging topics such as recursion, debugging, and algorithmic reasoning; reducing assignment error rates by ~20%

Uber Technologies, Inc.

New York, NY, Nov 2016 – Present

Independent Driver/Partner

- Maintained 5.0 rating while managing high-volume service in fast-paced environment
- Demonstrated reliability and problem-solving in high-pressure environments, applying critical thinking to resolve real-time challenges

LEADERSHIP & AFFILIATIONS

NSF S-STEM Scholar — Queens College

Aug 2025 - Present

Queens College Ambassador

Feb 2026 – Present

Muslim Student Association

Aug 2022 – Present

Code for All

Aug 2022 – Present
